

Accordingly, applicants submit herewith a corrected substitute Sequence Listing (computer readable form and paper "hard copy"), wherein the numeric identifier <211> has been corrected for each of SEQ ID NO 5 and 6. No new matter is added by the correction as the sequences listed at numeric identifier <400> were correct and accurate in each instance; the errors were a result of an inaccurate count of the number of residues present in each sequence.

A Marked-Up Version of the Sequence Listing, showing the changes made, is supplied herewith.

A Statement under 37 C.F.R. § 1.821 *et seq.* and a copy of the Notice to Comply are also provided.

CONCLUSION

In view of the remarks and amendments above, it is respectfully submitted that the claims of the invention are fully compliant with the requirements related to applications containing sequence disclosures. Accordingly, reconsideration and allowance of the claims are earnestly solicited at the earliest opportunity.

Respectfully submitted,

JÜRGEN ECK *et al.*
